

422 Protocol -- Founding Charter & Kingdom Mandate

Definition: The **422 Protocol** is a forensic comparison engine that uses advanced AI, probability mathematics, and biological signatures to verify historical artifacts against the **King James Bible (KJV)**. It moves beyond "possibility" to establish a **Forensic Lock** of identity.

The Three Pillars of the Protocol:

1. **4 (The Forensic Witnesses):** Analysis of physical data—Biopitting, Patina, Marine Micro-fossils, and 3D Topography.
2. **2 (The Mathematical Witnesses):** Calculation of Name Density and Population Probability to determine the "Odds of Uniqueness."
3. **2 (The Final Alignment):** The verification where Science and the KJV Text achieve a 1:1 match, confirming the object as a **Kingdom Record**.

Statement of Discovery: This protocol was established in **January 2026** by the Governor of these records through the leading of the Holy Spirit. It serves as a permanent witness that the King James Bible is the absolute "DNA" of human history. All glory belongs to the Lord Jesus Christ.
